JUSTIFICATION AND APPROVAL FOR USE OF OTHER THAN FULL AND OPEN COMPETITION

1. Contracting Activity.

Naval Air Warfare Center Aircraft Division (NAWCAD), Infrastructure and Operations Division (7.2.4) Patuxent River, MD

2. Description of the Action Being Approved.

This justification and approval authorizes and approves an increase in ceiling to support an additional Level-of-Effort [redacted] to be expended over the life of the contract under contract N00421-16-C-0031 with Advanced Alliant Solutions Team. Additionally, it is necessary to add the GSA Alliant Category Subject Matter Expert (Master). This additional level of effort will sustain contractor support to provide Information Technology (IT) services on unclassified networks to the F-35 Joint Strike Fighter Program Office (JSFPO) for special projects the Office of the Chief Information Officer (OCIO) is initiating. The Joint Strike Fighter (JSF) Program, formerly the Joint Advanced Strike Technology (JAST) Program, is the Department of Defense's (DoDs) focal point for defining affordable next generation strike aircraft weapon systems for the Navy, Air Force, Marines, and our allies. The F-35 will bring cutting-edge technologies to the battlespace of the future. The IT services shall enhance the effectiveness, efficiency, and productivity of the F-35 JPO by providing the Government with a range of IT services to support the mission of the F-35 JPO at the headquarters of the United States Department of Defense, Pentagon.

3. Description of Supplies/Services.

This acquisition will procure IT services consisting of, designing, building and sustainment of BMC Remedy, leading the Windows 10 deployment to include, building and maintaining the Windows 10 images for multiple models of workstations, management and sustainment of our CommVault enterprise backup system, designing, building and sustainment of a new communications infrastructure and an IT installation team to perform a variety of tasks. These tasks are to include, workstation imaging, workstation setup on end-users desks, monitor setup on end-user desks and providing administration for all of the above. All IT services must be documented, managed and maintained within DOD, DISA and USCYBERCOM security standards and mandates.

[redacted]

4. Statutory Authority Permitting Other Than Full and Open Competition.

10 U.S.C. 2304(c)(1), Only one responsible source and no other supplies or services will satisfy agency requirements.

5. Rationale Justifying Use of Cited Statutory Authority.

The F-35 Joint Strike Fighter Program Office (JSFPO) Office of the CIO (OCIO) identified the need to leverage IT contractor support through NAWCAD, Infrastructure and Operations Division's Contract (7.2.4) to enhance IT services within the JSFPO's unclassified networks. The primary IT services provided from contract vehicle, N00421-16-C-0031, provides for but is not limited to IT engineers within the following IT areas of BMC Remedy, Networking, Microsoft Windows, IT Installation, Project Management and CommVault. Without leveraging IT contractor support through NAWCAD, the JSFPO would introduce the risk for schedule delays, lower capacity of data services, possible increased service outages and failure to meet contractual obligations of IT dependencies across program missions due to costs and time associated. Therefore, it is in the government's best interest to increase the ceiling of the NAWCAD contract vehicle to allow JSFPO to leverage without additional unbudgeted funding charges and delays associated with the JSFPO awarding and managing a new IT services contract.

6. Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable.

NAWCAD, Information Technology/Cyber Security (IT/CS) Department (7.2), was approached by representatives of DoD's F-35 OCIO Enterprise Technology Infrastructure team. As discussed in paragraph 5, this was due to the nature of the scope of existing contracts and the services/programs that reside under the IT/CS umbrella. The critical requirements were analyzed and cross-referenced against existing contracts with similar scope and complexity of service. This contract vehicle was the only contract with nearly identical scope and complexity.

7. Determination of Fair and Reasonable Cost.

The DoD F-35 OCIO Enterprise Technology Infrastructure team evaluated current program costs, analyzed historical financial data, and forecasted current program expenditures necessitated to conduct its current and future mission. A quote was requested from the contractor for the additional ceiling. The Contract Specialist verified the labor costs of the categories that already exist within the current effort and for the labor category that is not currently on contract a cost analysis was performed to determine cost realism and reasonableness.

8. Actions to Remove Barriers to Future Competition.

This effort will be competed at contract completion.

Appendix A

Estimated Dollar Value [redacted]

	FY17	FY18	FY19	FY20	FY21	Total
[redacted]	[redacted]	[redacted]	[redacted]	[redacted]	[redacted]	[redacted]
Total	[redacted]	[redacted]	[redacted]	[redacted]	[redacted]	[redacted]

CERTIFICATIONS AND APPROVAL

TECHNICAL/REQUIREMENTS CERTIFICATION

I certify that the facts and representations under my cognizance which are included in this Justification and its supporting acquisition planning documents, except as noted herein, are complete and accurate to the best of my knowledge and belief.

Technical Cognizance:

[redacted] Patricia Vernon-Rushex [redacted]

Signature Name (Printed) Phone No. Date

Requirements Cognizance:

[redacted] Lesley Brooks [redacted]

Signature Name (Printed) Phone No. Date

LEGAL SUFFICIENCY REVIEW

I have determined this Justification is legally sufficient.

[redacted]

Signature Name (Printed) Phone No. Date

CONTRACTING OFFICER CERTIFICATION

[redacted] I certify that this Justification is accurate and complete to the best of my knowledge and belief.

[redacted] Janice Gordon [redacted]

Signature Name (Printed) Phone No. Date

APPROVED

Upon the basis of the above justification, I hereby approve the solicitation of the proposed procurement(s) described herein using other than full and open competition, pursuant to the authority of 10 U.S.C. 2304(c)(1). Only one responsible source and no other supplies or services will satisfy agency requirements.
