M2.14.100 EVALUATION – COMMERCIAL ITEMS (AEROSPACE ENERGY) (DESC JUL 2008)

(a) Award will be made on the basis of proposals meeting or exceeding the specific evaluation criteria contained in the solicitation. Non-cost factors to be evaluated shall be technical capability and past performance. In accordance with FAR 15.101-2(b)(3), proposals will be evaluated for acceptability but not ranked using the non-cost/price factors.

(b) Technical capability will be measured against requirements specified in the solicitation. As such, technical capability is considered acceptable when the offeror's proposal is in compliance with the requirements of the solicitation. Specific criteria used to judge acceptability are as follows:

(1) Acceptability of the narrative describing how the offeror will ensure a reliable supply of product/services to meet stated requirements;

(2) Acceptability of the narrative describing any Contractor-furnished equipment required to be located outside the Contractor's facility (e.g., on Government property).

(3) Acceptability of measures proposed to protect Government-owned equipment. This includes tamper and pilferage prevention measures;

(4) Acceptability of the offeror's supply commitments and sources when the offeror is not the manufacturer of the product to be delivered.

(c) Past performance shall generally include verification of performance with the offeror's past and current customers, to include Federal, State, and local governments as well as private entities. The form entitled Contractor Performance Data Sheet, located in Section J of the solicitation, may be used to provide relevant performance history pursuant to this solicitation. In accordance with FAR 15.305(a)(2)(iv), offerors without a record of relevant past performance or for whom information on past performance is not available may not be evaluated favorably or unfavorably on past performance. Additionally, past performance data may be obtained through the Past Performance Information Retrieval System, similar systems or other Government departments and agencies, questionnaires tailored to the circumstances of this acquisition, Defense Contract Management Agency channels, interviews with program managers and contracting officers, and other sources known to the Government (including commercial sources). Offerors will be given the opportunity to address any negative performance information resulting from the past performance assessment inquiries.

(d) After evaluating technical capability and past performance, the Contracting Officer will award a contract to the acceptable offeror with the lowest total evaluated price to the Government for each of the two customer locations listed in Schedule B.

(1) For evaluation purposes, the total evaluated price for each customer location will be the sum of all the CLINs that apply to that customer location. The evaluated price of each CLIN will be calculated by multiplying the CLIN's Estimated Quantity by each offeror's proposed unit prices. The evaluated price of each CLIN with subCLINs will be calculated in an identical manner for each subCLIN which will then be added together to arrive at the value of all the CLINs that apply to each customer location.

(2) Prices offered for Detention for each customer will not be included in the evaluation for award but will be included as a CLIN in each awarded contract.

(3) The Schedule B contains two customer locations; therefore, the Contracting Officer will award a contract to the acceptable offeror with the lowest total evaluated price on a customer by customer location basis. Thus, more than one contract may be awarded under this solicitation.

(e) If options are included, the Government will evaluate offers for award purposes by adding the lowest total evaluated price for all options to the lowest total evaluated price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(f) A written notice of award or acceptance of offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
