

L.10

f. Offerors may submit pricing forms for one or more of the following: Omaha Courthouse, Lincoln Courthouse, North Platte Courthouse, and/or Virtual Private Network (VPN) Services. All related forms in Section B.2 shall be submitted by the Offeror for each Courthouse and/or the VPN Services where they propose to provide these services.

Modify M.4 to read as follows:

The Government reserves the right to award a single contract or multiple awards resulting from this solicitation. If multiple awards are made, they shall be divided between the following: Omaha Courthouse, Lincoln Courthouse, North Platte Courthouse, and Virtual Private Network (VPN) Services.

Contract award will be made to the responsible Offeror whose offer represents the best overall value to the Government, given the outcome of the Government's evaluation of each Offeror's technical proposal and price. In selecting the best overall value, the Government will consider the quality offered for the evaluated price. The relative quality of offers will be based upon the Government's assessment of the tradeoffs between the technical excellence offered in the proposal and whether it provides added value, added capability, and/or reduced risk.

With regard to determining Contractor responsibility, the Government reserves the right to conduct a site survey/visit on the apparent awardee's facility prior to award.
