B.1 -RESERVED

B.2 Scope

The work consists of furnishing all labor, tools, supplies, repair parts, oil, grease, fuel filters, air filters, oil filters, etc., to perform timely and effective preventive maintenance (PM), service calls and repair service, including performing Limited Technical Inspections (LTI), when required for Material Handling Equipment that have DLA numbers. Preventive maintenance (PM) on electric forklift batteries will include battery acid testing to ensure the electrodes are capable of proper performance in the cells, prevention of corrosion on the cables, check wear and tear of cables and connectors and upkeep of the outside areas of the battery itself. This also would include any service calls for the battery chargers. Annual certification of the battery hoist equipment used to remove the batteries out of the lifts. This is an OSHA requirement. The equipment is located at DRMO Benning: Bldg 470, 10th Mt. Div. RD, Ft. Benning, GA 31995-2410. The equipment to be serviced by this contract is listed in attachment B, schedule of supplies/services. During the course of the year, there will be deletions and additions of forklifts in which the DRMO will inform the contractor and also a modification to the contract will be issued to reflect the changes. All repairs and preventative maintenance services are to be made in accordance with Original Equipment Manufacturers (OEM) manual. The contractor shall be paid for the actual services provided. The contractor will be required to comply with all applicable environmental protection regulations (see paragraph B.12)).

B.3 Schedule

The preventive maintenance services required under this contract will be performed every six (6) months as ordered for DRMO Benning. Repair services and limited technical inspections will be performed as required. The scheduling of PMs will be accomplished by the contractor and the DRMO upon mutual agreement.

B.4 Adjustments in MHE Density

The Contracting Officer or Representative shall have the right to make increases or decreases to the schedule of equipment as new and/or replacement equipment is received or equipment is deleted from the schedule.

B.5 Identification of Employees

The contractor shall be responsible for furnishing to each of their employees' identification as may be required by the military installation where the DRMO is located. Contractor will require

each of their employees engaged on the work site to display such identification as directed by the appropriate installation. All prescribed identification shall be delivered to the Contracting Officer's Representative for cancellation upon the release of any employee. Badges are issued for a period of one year and must be returned to the issuing pass office prior to renewal. Failure to return badges may constitute a delay in payment.

B.6 Acceptance/Correction of Work

All work performed under this contract shall be subject to the acceptance of the Contracting Officer's representative or designated inspector. If performance is found to be unsatisfactory and not in accordance with the requirements of this contract, the contractor shall begin correcting unsatisfactory work as soon as possible but not later than the first three (3) hours of the following regularly scheduled Government workday. Work performed is at the expense of the contractor.

B. 7 Scheduled Preventive Maintenance Services

The contractor will perform PM services on-site to minimize equipment downtime. PMs include visual and operational inspections, lubrication of axles and fittings, repairs, changes (fuel filters, air filters, oil filters), checking of hydraulic lines, adjustments and replacements that are necessary to provide operational MHE. The contractor shall be responsible for the correct mixture of anti-freeze to prevent freezing during cold weather. All PMs to include those items that have been received under warranty must be performed in accordance with the original equipment manufacturers specifications and appropriate manufacturers manuals. The costs of the following items are to be included as part of preventative maintenance: oil, grease/lubricants, fluids, anti-freeze, oil filters, air filters, fuel filters and fittings. The cost of repair parts is covered and will be reimbursed.

B. 8 Unscheduled Minor Repairs/Service Calls

Minor repairs, including service calls which are necessary to replace or overhaul unserviceable components, assemblies, sub-assemblies, and electrical components will be performed when required, in order to keep the equipment fully operational. Minor repairs will have a maximum twenty-four (24) hours turn around time after notification by the Contracting Officer's Representative, excluding federal holidays and weekends. If parts/supplies are not readily available to meet the twenty-four (24) hour repair criteria, the contractor will be required to provide to the Contracting Officer's Representative a written justification for the delay and the estimated delivery date of the parts/supplies or tires.

B.9 Major Component Repairs

Major component repairs such as engine overhaul, power train repair, etc will require a Limited Technical Inspection prior to proceeding. Major repairs are not being performed without prior approval of the Contracting Officer or Representative. The contractor will submit a cost estimate as soon as possible but not later than five (5) working days after request to the Contracting Officer or Representative to determine if repair is economically feasible on a particular piece of equipment. Prior to proceeding with any such repair, the Contracting Officer or representative

shall approve or disapprove such repair. Actual cost of repairs shall not exceed the cost estimate by five (5) percent. The contractor must submit written justification for any repair price exceeding five percent. The contractor must submit written justification for any repair price exceeding five percent. The contractor must receive written approval from the Contracting Officer or representative prior to proceeding with the repairs.

B.10 Uneconomical Repairs

If determined by the Contracting Officer or Representative that it is not cost effective to repair a particular piece of equipment, the Contracting Officer or Representative may request the contractor to perform a Limited Technical Inspection to determine the equipment's overall condition and serviceability. The LTI will include, but not be limited to: a thorough inspection of the equipment such as engine, transmission, major components, controls, mast, cables, chains, hoses, and electrical, air, hydraulic systems, etc. to determine disposition of the equipment. The LTI will include an estimated cost for labor and materials required to return the equipment to operating condition. The contractor will complete the LTI within five (5) working days after notification. The necessary form, DLA Form 1730, will be furnished by the Government. Payment for preparing the LTI will be paid as per rate shown in the schedule of prices.

B.11 Safety Inspections

The contractor will perform a condition inspection on MHE located at DRMO Benning to ensure that the overall structural, mechanical and electrical components are in compliance with OSHA standards currently in effect and in use by DRMO Benning. The safety inspection will be performed on all MHE after major repairs or as otherwise determined by the Contracting Officer or Representative.

B.12 Environmental Protection

In order to provide for environmental abatement and control and to prevent environmental pollution arising from the services of the contractor in the performance of this contract, the contractor shall comply with applicable federal, state and local laws and regulations concerning environmental pollution abatement and control currently in effect.

B.13 Clean up of Premises

Upon completion of services provided, the contractor is required to clean up work space and remove and dispose of any parts or debris resulting from the contractor's performance. This is required after each day of on-site performance.

B.14 MHE Availability and Release

The Government shall make available to the contractor, equipment for maintenance or repairs in accordance with the provisions of the schedule. The contractor upon receipt of any government equipment shall assume the risk of and shall be responsible for any loss or damage thereto. Any equipment described herein to be moved from the activity shall have the prior approval of the

Contracting Officer or Representative. The Contractor shall sign for receipt of any government equipment moved from the government installation. The necessary form, DRMS Form 1367, will be furnished by the Government.

B.15 Government Furnished Facilities

There are areas available at DRMO Benning for on site repairs. Existing utilities will be furnished without charge to the Contractor during normal government working days Monday through Friday; between the hours of 0700 to 1530 or other scheduled times that have the prior approval of the Contracting Officer or Representative. The contractor shall assume the risk of and shall be responsible for any loss or damage thereto as a result of contractor performance. Welding shall not be performed inside any of the facilities.

B.16 Contractor Furnished Facilities

The contractor shall be required to perform all repairs in his facility/shop, which are not feasible to repair on site. The Contractor shall furnish materials, labor, and transportation for all equipment that is repaired in contractor facilities. The Contractor shall assume the risk of and shall be responsible for any loss or damage thereto as a result of contractor performance.

Parts and Materials:

- a. Replacement parts shall be furnished by the contractor. All worn out or deteriorated parts recommended for replacement may, upon request, be physically examined by the Contracting Officer's Representative prior to actual replacement. All worn out or deteriorated parts will be returned to the Contracting Officer's Representative unless an acceptable monetary credit is provided the government by the contractor.
- b. All original equipment manufacture recommended replacement parts and materials may be examined, when requested, by the Contracting Officer's prior to installation. All parts and materials which are substituted for OEM replacement parts by the contractor shall be approved by the Contracting Officer's Representative prior to installation. No rebuilt parts may be used without prior approval of the Contracting Officer's representative.
- c. Parts or components damaged by the contractor shall be repaired or replaced at the expense of the contractor to the satisfaction of the Contracting Officer's Representative.
- d. The contractor shall be reimbursed by the government for the parts/supplies at the contractor's net price as stated in the invoice from the respective supplier. A copy of the invoice for the parts/supplies shall be submitted to the Contracting Officer's Representative for payment verification. Invoices for repair services, where parts

pricing are separate from labor hours, will be documented by a listing citing the OEM part number or authorized substituted item to include nomenclature, quantity used, and price (referenced to appropriate list).

B.17 Time of Performance

The service and repairs to be performed under this contract will be performed during normal government working days, Monday through Friday, between the hours of 0700 to 1530. If services are scheduled by the contractor to be performed on a regular federal holiday (see below), or one designated by Presidential proclamation, rescheduling shall be at the discretion of the Contracting Officer's Representative.

New Years Day	1 January*
Martin Luther King's Birthday	3rd Monday in January
Presidents Day	3rd Monday in February
Memorial Day	Last Monday in May
Independence Day	4 July*
Labor Day	1st Monday in September
Columbus Day	2nd Monday in October
Veterans Day	11 November*
Thanksgiving Day	4th Thursday in November
Christmas Day	25 December*

* The holiday is observed on the preceding Friday or the following Monday when the holiday occurs on Saturday or Sunday, respectively.

B.18 Warranty

The contractor agrees that the materials and services furnished under this contract shall be covered by the most favorable commercial warranties the contractor provides to customers for such materials and services, but if not otherwise specified, not less than a minimum of ninety (90) days warranty. The contractor agrees that the rights and remedies provided herein are in addition to and do not limit any rights afforded to the government by any other clause of this contract. New equipment received by the government under manufacturer's warranty will not be repaired without prior approval of the Contracting Officer or Representative. The Contracting Officer or Representative may request the contractor to inspect the equipment to determine if the provisions of the manufacturers warranty are applicable. Payment for contractor inspection will be determined in accordance with the schedule of prices.

C.5 ORDERING, FAR 52.216-18 (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from date of award through the 12-month base period.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflicts between a task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the schedule.

C.6 TIME-AND-MATERIALS/LABOR-HOUR PROPOSAL REQUIREMENTS—COMMERCIAL ITEM ACQUISITION 52.216-31 (FEB 2007)

a) The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.

b) The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—

(1) The offeror; (2) Subcontractors; and/or (3) Divisions, subsidiaries, or affiliates or the offeror under a common control.

C.6 Option to Extend the Term of the Contract FAR 52.217-9 (Mar 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within 7 days before contract expiration; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 14 days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 4 years.

C.7 Option to Extend Services FAR 52.217-8 (Nov 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within 7 days of contract expiration.

C. 17 DRMS Environmental Management System (EMS)

1. DRMS implemented EMS in accordance with ISO 14001:2004(E), DOD and DLA requirements at all DRMS appropriate facilities. An EMS is an overall management system that includes organizational structure, planning activities, responsibilities, practices, procedures, processes and resources for developing, implementing, achieving, reviewing and maintaining the environmental policy of an organization. The DRMS EMS is designed to ensure that all personnel, including contract personnel, whose work activities can cause real or potential significant environmental impact, are aware of how their work supports the EMS and are competent to perform their roles, responsibilities and authorities while supporting the DRMS mission. The DRMS EMS program is explained in DRMS-I 6050.2, Environmental Management System (EMS) Core Instruction. The DRMS-I 6050.2 may be viewed online at: <https://www.drms.dla.mil/publications/html/6050.2.html> . Site supplements detail information required by EMS at a local level such as local, state and host environmental regulations as well as local emergency procedures and operating procedures unique to the location. Site supplements also contain information concerning the local interaction between the DRMS tenant appropriate facility and the DOD/DLA host facility EMS program.

2. Contractors and their personnel are required to be aware that each DRMS appropriate facility has an EMS and to be aware of EMS policies to perform work and/or gain access to an installation. Each DRMS appropriate facility maintains EMS awareness posters that identify the DRMS Environmental Management Representative (EMR) and Host facility EMR for specific guidance concerning an individual facilities' EMS program.

3. The current list of DRMS appropriate facilities can be viewed at:
