E35 NONCONFORMING SUPPLIES AND SERVICES (DESC JAN 2004)

(a) The Government may, at its discretion, accept nonconforming supplies or services. In such cases, the Contractor must obtain a deviation or waiver from the Contracting Officer prior to acceptance.

(b) The following procedures shall be used to request a deviation or waiver to the applicable nonconformance(s). A deviation is a request by a Contractor to deviate from the contract requirements after contract award, but prior to initial production of each product (for the duration of the contract). A waiver is a request by a Contractor to deviate from the contract requirements after initial production or each product (on a case-by-case basis or for a set period).

(1) Requests for deviations and waivers shall be submitted by the Contractor to the Contracting Officer with a copy to the Quality Representative (QR). Each request shall provide the following information: Contractor name; contract number; contract line item and product, if applicable; clause number, paragraph and subparagraph, as appropriate; the nature of the request; the reason for the request; the corrective action being taken by the Contractor to correct and prevent recurrence of the condition(s) causing the nonconformance; and

equitable price adjustment offered over the administrative fee. In extraordinary situations, the Contractor may initially submit the request for a waiver, not a deviation, through the cognizant QR to the Contracting Officer or the Contracting Officer's Representative (COR) in the Quality Operations Division (DESC-BQ) of the Defense Energy Support Center (DESC). Extraordinary situation requests shall be submitted formally to the Contracting Officer prior to close of business of the next normal DESC workday (0800 to 1630 hours EST, Monday through Friday, Federal Holidays excluded). As used in this clause, the term extraordinary situation means the matter cannot await resolution until the next normal DESC workday. In addition, if either the Contracting Officer or the COR cannot be reached, the Duty Officer shall be contacted and provided the necessary information to forward to the proper individuals as soon as possible. The Duty Officer's telephone number is **(800) 286-7633** or **(703) 767-8420; (DSN) 427-8420**.

(2) If a deviation or waiver is granted, the contract will be modified to provide an equitable price reduction or other adequate consideration commensurate with the deviation or waiver being granted. If the situation dictates, a deviation or waiver may be granted without prior agreement on price adjustment or other consideration subject to agreement by the Contractor, or its representative, to subsequent negotiation. Such agreement shall be documented on the receiving document or other appropriate correspondence. After negotiations, failure to agree on adequate consideration shall be a dispute concerning a question of fact within the meaning of the Disputes paragraph of the CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS clause of this contract.

(3) If a deviation or waiver is granted and the nonconforming supplies are accepted, then in no event will consideration be less than \$250 to cover administrative costs, plus any additional cost of Government reinspection or retest, if necessary.

(4) If a deviation or waiver is granted modifying this contract but the supplies accepted are subsequently determined to be in conformity with contract specifications, the Contractor shall still be obligated to pay the consideration originally agreed upon in support of the deviation or waiver. If, however, this consideration exceeds \$500, a second contract modification shall be issued reducing the Contractor's obligation to \$500 (the administrative cost of issuing the two required modifications).

(c) When notification of nonconforming supplies is received after the supplies have been accepted, and the Government determines not to exercise its right to reject or to require correction under the INSPECTION OF SUPPLIES – FIXED-PRICE, INSPECTION AND ACCEPTANCE OF SUPPLIES (SHIPS' BUNKERS), or CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS clause, then in no event will consideration be less than \$250 to cover administrative costs. This \$250 fee is in addition to—

- (1) Consideration commensurate with the extent of nonconforming supplies; and
- (2) Cost of Government reinspection or retest, if necessary.

The administrative fee will apply to each claim letter issued for off-specification product delivered to an activity.

(d) Contractors shall be held responsible for payment of any fines or penalties imposed on a receiving activity by an environmental enforcement agency, resulting from the delivery of nonconforming supplies under a DESC contract.

(e) Repeated tender of nonconforming supplies or services, including those with only minor defects, will be discouraged by appropriate actions, including, but not limited to rejecting the supplies or services whenever feasible and documenting the Contractor's performance records.

- (a) **Acceptance period**, as used in this provision, means the number of calendar days available to the Government for awarding a contract from the date specified in this solicitation for receipt of proposals.
- (b) This provision supersedes any language pertaining to the acceptance period that may appear elsewhere in this solicitation.
- (c) The Government requires a minimum acceptance period of 60 calendar days.
- (d) If the offeror specifies an acceptance period which is less than that required by the Government, such offer may be rejected.
- (e) The offeror agrees to execute all that it has undertaken to do, in compliance with its offer, if such offer is acceptable to the Government and is accepted within the acceptance period stated in (c) above or within any extension thereof that has been agreed to by the offeror.

(DESC 52.215-9FB1)

L2.11-4 E-MAIL PROPOSALS (DESC APR 2005)

- (f) The DESC e-mail filter will scan the incoming e-mail and attachments for viruses and key words. Abbreviations for terms such as “Analysts” or using “3Xs” as placeholders in a document are found in the filter’s adult content library and may result in the e-mail delivery being delayed. Offerors are encouraged to verify receipt of e-mail offers by contacting the Contracting Officer prior to the solicitation closing time.

(DESC 52.215-9FA8)

L2.35 PROPOSAL FORMAT AND CONTENT (AEROSPACE ENERGY) (DESC AUG 2007)

Proposals shall be submitted in two sections and clearly labeled **Price Proposal** and **Technical Proposal**.

- (a) **PRICE PROPOSAL**. The following items shall comprise the price proposal for this solicitation:

(1) In the Schedule, Section B, Supplies or Services and Prices/Costs, shall be completed for each Contract Line Item Number (CLIN) unless the Schedule notes that multiple awards will be made. In that case, the offeror may select which CLINs against which to submit an offer (unless otherwise specified in the solicitation);

(2) The Standard Form 1449 must be completed, as well as the MANUFACTURING AND FILLING POINTS and TRANSPORT TRUCK AND/OR TRUCK AND TRAILER FREE TIME AND DETENTION RATES (AEROSPACE ENERGY) clauses, if included, and all certifications and representations contained in Section K of the solicitation; and

(b) TECHNICAL PROPOSAL.

(1) **NONCOST FACTOR 1: TECHNICAL CAPABILITY.** The offeror shall provide a technical proposal by completing the fill-in data requested in paragraphs (b)(1)(i) through (b)(1)(iv) and attaching supply commitment letters requested in paragraph (b)(1)(iv). The offeror may submit continuation sheets with this fill-in provision to provide additional technical narrative, however, the complete technical proposal, exclusive of any résumés, drawings, or blueprints, shall not exceed 12 pages. The proposal will be evaluated strictly on technical merit and should describe and justify the offeror's technical approach to the requirements of the work to be performed and/or delivery of product under the contract. The technical proposal should be specific and provide concise, straight-forward descriptions of the offeror's capability to perform the requirements of the contract. Proposals that are unrealistic in terms of the description of the offeror's technical capability may be considered indicative of a lack of understanding of the solicitation's requirements. Technical proposals shall include the following (any element you do not address shall be identified as "N/A"):

(i) Description of how the offeror will ensure a reliable supply of products/services to meet the annual estimated quantities stated in the RFP schedule.

(A) Production capability per day of proposed fill plant. _____

(B) Plant storage capacity for product offered. _____

(C) If offeror will be making deliveries to customers, describe type, number and size of containers that will be used for making deliveries.

(D) If the contract requires maintenance and repair of Government-owned equipment, such as repairs to cylinders or tube trailers, describe how such services will be performed to meet solicitation requirements.

(E) Describe offerors proposed quality sampling plan that will be implemented to assure individual shipments made under this solicitation meet the product quality requirements stated in the applicable specification or product description.

(ii) Description of Contractor-furnished equipment at a location other than the Contractor's facility (e.g., on Government property).

(A) Describe all Contractor provided equipment to include a description of size, certifications, instrumentation (including alarms), design parameters, etc.

(B) Include a timeline for the purchase, installation, testing and commissioning of the equipment.

(iii) If applicable, describe the method for securing delivery container and/or cargo tank openings with tamper indicating devices (i.e., seals) to prevent tampering and/or pilferage from the time the cargo tank is loaded until it is delivered to its destination. (Refer to the CONTRACTOR SEAL REQUIREMENT clause.)

(iv) For solicitations containing product CLINs, if the offeror is not the manufacturer of the product to be delivered under the contract, the offeror shall provide a detailed description of where the product(s) will be obtained. The offeror shall attach any written supply commitments that clearly indicate—

(A) The offeror’s supplier is willing to provide the products and/or services required to be delivered/performed under any resultant contract for the duration of the delivery period shown in the Schedule; and

(B) Confirmation of the quantity and specification of the products to be delivered;

(2) **NONCOST FACTOR 2: PAST PERFORMANCE.** The offeror shall submit information regarding its past performance on the form entitled CONTRACTOR PERFORMANCE DATA REPORT, as attached to the solicitation. All contracts and subcontracts (completed or in progress) for the last three years awarded by DESC as well as other (completed or in progress) Government agencies or the private sector that are related to the proposed contract shall be included on the form. Failure to submit a complete list may reflect adversely on the offeror. The number of relevant past performance efforts submitted in accordance with the attachment shall not exceed five for the prime offeror. The Government reserves the right to make telephone contact with offerors, proposed subcontractors and references in order to confirm and/or clarify the past performance information submitted. The Government has the option to consider information from these sources, and any others that may be available, that it deems necessary in order to make an accurate assessment of the offeror’s past performance. In addition, the offeror should provide additional information on any significant problems encountered and corrective actions taken under contract(s) which would otherwise cause an unacceptable rating in this factor.

(c) **EXCEPTIONS.** Exceptions (price or technical) taken to the terms and conditions of the solicitation and/or any of its formal attachments shall be identified. Each exception shall be specifically related to each paragraph and/or specific part of the solicitation to which the exception is taken. Provide rationale in support of the exception and fully explain the impact, if any, on the performance, price, and

specific requirements of the solicitation. Failure to comply with the terms and conditions of the solicitation may result in the offeror being removed from consideration for award.

(DESC 52.215-9F98)

L54.02 SITE VISIT (AEROSPACE ENERGY) (DESC APR 2006)

(a) It is the responsibility of the offerors to inspect the site where supplies are to be delivered and/or services are to be performed and to obtain all available information about the site necessary to satisfy themselves about general and local conditions that may affect delivery as well as cost of contract performance, to the extent that the information is reasonably obtainable. Offerors are responsible for any costs incurred for any site inspection and for obtaining information.

(b) In no event shall failure to inspect the site constitute grounds for a claim after contract award.

(c) Offerors who are interested in a site inspection should not contact the customer(s) directly, but forward such request(s), in writing, directly to the DESC Point of Contact for this procurement, shown in Block 7 of the Standard Form 1449.

(DESC 52.237-9F06)

EVALUATION – COMMERCIAL ITEMS

M2.14.100 EVALUATION – COMMERCIAL ITEMS (AEROSPACE ENERGY) (DESCAUG 2008)

(a) Award will be made on the basis of proposals meeting or exceeding the specific evaluation criteria contained in the solicitation. Non-cost factors to be evaluated shall be technical capability and past performance. In accordance with FAR 15.101-2(b)(3), proposals will be evaluated for acceptability but not ranked using the non-cost/price factors.

(b) Technical capability will be measured against requirements specified in the solicitation. As such, technical capability is considered acceptable when the offeror's proposal is in compliance with the requirements of the solicitation. Specific criteria used to judge acceptability are as follows:

(1) Acceptability of the narrative describing how the offeror will ensure a reliable supply of product/services to meet stated requirements.

(2) Acceptability of the narrative describing any Contractor-furnished equipment required to be located outside the Contractor's facility (e.g., on Government property).

(3) Acceptability of offeror's narrative describing tamper indicating devices (TIDs) that will be used to seal delivery container access ports/openings.

(4) Acceptability of the offeror's supply commitments and sources when the offeror is not the manufacturer of the product to be delivered.

(c) Past performance shall generally include verification of performance with the offeror's past and current customers, to include Federal, State, and local governments as well as private entities. The form entitled Contractor Performance Data Sheet, located in Section J of the solicitation, may be used to provide relevant performance history pursuant to this solicitation. In accordance with FAR 15.305(a)(2)(iv), offerors without a record of relevant past performance or for whom information on past performance is not available may not be evaluated favorably or unfavorably on past performance. Additionally, past performance data may be obtained through the Past Performance Information Retrieval System, similar systems or other Government departments and agencies, questionnaires tailored to the circumstances of this acquisition, Defense Contract Management Agency channels, interviews with program managers and contracting officers, and other sources known to the Government (including commercial sources). Offerors will be given the opportunity to address any negative performance information resulting from the past performance assessment inquiries.

(d) After evaluating technical capability and past performance, the Contracting Officer will award to the acceptable offeror with the lowest total evaluated price to the Government for the customer location identified in Schedule B.

(1) For evaluation purposes, the total evaluated price for this customer location will be the sum of all the CLINs that apply to this customer location. The evaluated price for this customer location will be calculated by multiplying the CLIN's Estimated Quantity by the offeror's proposed unit prices. The evaluated price of each CLIN with SubCLIN will be calculated in an identical manner for each SubCLIN and then added together to arrive at the value of all the CLINs that apply to this customer location.

(2) Price offered for Detention at this customer location will not be included in evaluation for award but will be included as a CLIN or SubCLIN in the awarded contract.

(e) If options are included, the Government will evaluate offers for award purposes by adding the total lowest- total evaluated price for all options to the total lowest-laid down price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(f) A written notice of award or acceptance of offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(1) The offeror and/or any of its principals

- are

presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency, and

(2) have

presently indicted for, or otherwise criminally or civilly charged by a government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this provision; and

(4) have
 have not

Within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) **The tax liability is finally determined.** The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) **The taxpayer is delinquent in making payment.** A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) **Examples.**

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(i) **CERTIFICATION REGARDING KNOWLEDGE OF CHILD LABOR FOR LISTED END PRODUCTS (EXECUTIVE ORDER 13126).** [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).]

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for those employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this provision applies--

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Act wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and
