A.7 NOTICE OF CONTRACTOR PERSONNEL SECURITY REQUIREMENTS (OCT 2005)

Compliance with Homeland Security Presidential Directive-12 (HSPD-12) and Federal Information Processing Standard Publication 201 (FIPS 201) (See Note i) entitled "Personal Identification Verification (PIV) for Federal Employees and Contractors," Phase I.

(1) Long-Term Contractor Personnel:

In order to be compliant with HSPD-12/PIV I, the following investigative requirements must be met for each new long-term (See Note ii) contractor employee whose background investigation (BI) process begins on or after October 27, 2005:

- (a) Contractor Personnel must present two forms of identification in original form prior to badge issuance (acceptable documents are listed in Form I-9, OMB No. 1615-0047, "Employment Eligibility Verification," and at least one document must be a valid State or Federal government-issued picture ID);
- (b) Contractor Personnel must appear in person at least once before a DOJ official who is responsible for checking the identification documents. This identity proofing must be completed sometime during the clearance process but prior to badge issuance and must be documented by the DOJ official;
- (c) Contractor Personnel must undergo a BI commensurate with the designated risk level associated with the duties of each position. Outlined below are the minimum BI requirements for each risk level:
 - High Risk - Background Investigation (5 year scope)
 - Moderate Risk - Limited Background Investigation (LBI) or Minimum Background Investigation (MBI)
 - Low Risk - National Agency Check with Inquiries (NACI) investigation
- (d) The pre-appointment BI waiver requirements for all position sensitivity levels are a:
 - (1) Favorable review of the security questionnaire form;
 - (2) Favorable fingerprint results;
 - (3) Favorable credit report, if required; (See Note iii)
 - (4) Waiver request memorandum, including both the Office of Personnel Management schedule date and position sensitivity/risk level; and
 - (5) Favorable review of the National Agency Check (NAC) (See Note iv) portion of the applicable BI that is determined by position sensitivity/risk level.

A badge may be issued following approval of the above waiver requirements.

If the NAC is not received within five days of OPM's scheduling date, the badge can be issued based on a favorable review of the Security Questionnaire and the Federal Bureau of Investigation Criminal History Check (i.e., fingerprint check results).

- (e) Badge re-validation will occur once the investigation is completed and favorably adjudicated. If the BI results so justify, badges issued under these procedures will be suspended or revoked.

(2) Short-Term Contractor Personnel:

It is the policy of the DOJ that short-term contractors having access to DOJ information systems and/or DOJ facilities or space for six months or fewer are subject to the identity proofing requirements listed in items 1a. and 1b. above. The pre-appointment waiver requirements for short-term contractors are:

- (a) Favorable review of the security questionnaire form;
- (b) Favorable fingerprint results;
- (c) Favorable credit report, if required; (See Note v) and
- (d) Waiver request memorandum indicating both the position sensitivity/risk level and the duration of the appointment. The commensurate BI does not need to be initiated.

A badge may be issued following approval of the above waiver requirements and the badge will expire six months from the date of issuance. This process can only be used once for a short-term contractor in a twelve month period. This will ensure that any consecutive short-term appointments are subject to the full PIV-I identity proofing process.

For example, if a contractor employee requires daily access for a three or four-week period, this contractor would be cleared according to the above short-term requirements. However, if a second request is submitted for the same contractor employee within a twelve-month period for the purpose of extending the initial contract or for employment under a totally different contract for another three or four-week period, this contractor would now be considered "long-term" and must be cleared according to the long-term requirements as stated in this interim policy.

(3) Intermittent Contractors:

An exception to the above-mentioned short-term requirements would be intermittent contractors.

- (a) For purposes of this policy, "intermittent" is defined as those contractor employees needing access to DOJ information systems and/or DOJ facilities or space for a maximum of one day per week, regardless of the duration of the required intermittent access. For example, the water delivery contractor that delivers water one time each week and is working on a one-year contract.
 - (b) Contractors requiring intermittent access should follow the Department's escort policy. Please reference the August 11, 2004, and January 29, 2001, Department Security Officer policy memoranda that conveys the requirements for contractor facility escorted access.
 - (c) Due to extenuating circumstances, if a component requests unescorted access or DOJ IT system access for an intermittent contractor, the same pre-employment background investigation waiver requirements that apply to short-term contractors are required.
 - (d) If an intermittent contractor is approved for unescorted access, the contractor will only be issued a daily badge. The daily badge will be issued upon entrance into a DOJ facility or space and must be returned upon exiting the same facility or space.
 - (e) If an intermittent contractor is approved for unescorted access, the approval will not exceed one year. If the intermittent contractor requires unescorted access beyond one year, the contractor will need to be re-approved each year.
- (4) An individual transferring from another department or agency shall not be re-adjudicated provided the individual has a current (within the last five years), favorably adjudicated BI meeting HSPD-12 and DOJ's BI requirements.
- (5) The DOJ's current escorted contractor policy remains unchanged by this acquisition notice.

NOTES:

- i FIPS 201 is available at: www.csrc.nist.gov/publications/fips/fips201/FIPS-201-022505.pdf
- ii Under HSPD-12, long-term contractors are contractors having access to DOJ information systems and/or DOJ facilities or space for six months or longer. The PIV-I identity proofing process, including initiation and adjudication of the required background investigation, is required for all new long-term

- contractors regardless of whether it is the current practice to issue a badge. The second phase of HSPD-12 implementation (PIV-II) requires badge issuance to all affected long-term contractors.
- iii For contractors in position sensitivity/risk levels above level 1, a favorable review of a credit check is required as part of the pre-appointment waiver package.
 - iv In order to avoid a delay in the hiring process, components should request an Advance NAC Report when initiating investigations to OPM. Per OPM's instructions, to obtain an Advance NAC Report, a Code "3" must be placed in block "B" of the "Agency Use Only" section of the investigative form. This report is available for all case types.
 - v For contractors in position sensitivity/risk levels above level 1, a favorable review of a credit check is required as part of the pre-appointment waiver package.

A.8 SECURITY OF SYSTEMS AND DATA, INCLUDING PERSONALLY IDENTIFIABLE INFORMATION (MAR 2008)

a. Systems Security:

The work to be performed under this contract requires the handling of data that originated within the Department, data that the contractor manages or acquires for the Department, and/or data that is acquired in order to perform the contract and concerns Department programs or personnel.

For all systems handling such data, the contractor shall comply with all security requirements applicable to Department of Justice Systems, including by not limited to all Executive Branch system security requirements (e.g., requirements imposed by OMB and NIST), DOJ IT Security Standards and DOJ Order 2640.2E. The contractor shall provide DOJ access to and information regarding the contractor's systems when requested by the Department in connection with its efforts to ensure compliance with all such security requirements, and shall otherwise cooperate with the Department in such efforts. DOJ access shall include independent validation testing of controls, system penetration testing by DOJ, FISMA data reviews, and access by the DOJ Office of the Inspector General for its reviews.

The use of contractor-owned laptops or other media storage devices to process or store data covered by this clause is prohibited until the contractor provides a letter to the Contracting Officer (CO) certifying the following requirements:

1. Laptops must employ encryption using a NIST Federal Information Processing Standard (FIPS) 140-2 approved product;
2. The contractor must develop and implement a process to ensure that security and other applications software is kept up-to-date;
3. Mobile computing devices will utilize anti-viral software and a host-based firewall mechanism;
4. The contractor shall log all computer-readable data extracts from databases holding sensitive information and verify each extract including sensitive data has been erased within 90 days or its use is still required. All DOJ information is sensitive information unless designated as non-sensitive by the Department;
5. Contractor-owned removable media, such as removable hard drives, flash drives, CDs, and floppy disks, containing DJB data, shall not be removed from DOJ facilities unless encrypted using a NIST FIPS 140-2 approved product;
6. When no longer needed, all removable media and laptop hard drives shall be processed (sanitized, degaussed, or destroyed) in accordance with security requirements applicable to DOJ;
7. Contracting firms shall keep an accurate inventory of devices used on DOJ contracts;
8. Rules of behavior must be signed by users. These rules shall address at a minimum: authorized and official use; prohibition against unauthorized users; and protection of sensitive data and personally identifiable information.

9. All DOJ data will be removed from contractor-owned laptops upon termination of contractor work. This removal must be accomplished in accordance with DOJ IT Security Standard requirements. Certification of data removal will be performed by the Contractor's project manager and a letter confirming certification will be delivered to the CO within 15 days of termination of contractor work.

b. Data Security:

By acceptance of, or performance on, this contract, the contractor agrees that with respect to the data identified in paragraph a, in the event of any actual or suspected breach of such data (i.e., loss of control, compromise, unauthorized disclosure, access for an unauthorized purpose, or other unauthorized access, whether physical or electronic), the contractor will immediately (and in no event later than within one hour of discovery) report the breach to the DOJ CO and the contracting officer's technical representative (COTR).

If the data breach occurs outside of regular business hours and/or neither the CO or the COTR can be reached, the contractor shall call the DOJ Computer Emergency Readiness Team (DOJCERT) at 1-866-US4-CERT (1-866-874-2378) within one hour of discovery of the breach. The contractor shall also notify the CO as soon as possible during regular business hours.

c. Personally Identifiable Information Notification Requirement:

The contractor further certifies that it has a security policy in place that contains procedures to promptly notify any individual whose personally identifiable information (as defined by OMB) was, or is reasonably believed to have been, breached. Any notification shall be coordinated with the Department, and shall not proceed until the Department has made a determination that notification would not impede a law enforcement investigation or jeopardize national security. The method and content of any notification by the contractor shall be coordinated with, and be subject to the approval, of the Department. The contractor assumes full responsibility for taking corrective action consistent with the Department's Data Breach Notification Procedures, which may include offering credit monitoring when appropriate.

d. Pass-through of Security Requirements to Subcontractors (MAR 2008)

The requirements set forth in Paragraphs a through c above, apply to all subcontractors who perform work in connection with this contract. For each subcontractor, the contractor must certify that it has required the subcontractor to adhere to all such requirements. Any breach by a subcontractor of any of the provisions set forth in this clause will be attributed to the contractor.
