	<p>Q2. Considering the equipment alone has an approximate manufacturing time of 8 weeks, is it acceptable to begin the 2-3 day training and installation within a week following completion of the Site Preparation work (as opposed to "within 8 weeks from date of order")?</p> <p>A2. Yes, installation and training immediately after TTB's site preparation is acceptable. QASP will be adjusted accordingly.</p> <p>Q3. There are listed Option years for "post-warranty maintenance" on the RFQ. Is TTB wanting a "preventative maintenance kit" for the post-warranty years, or an "extended warranty"?</p> <p>A3. If possible, we would like to see pricing options for both preventative maintenance, as well as an "extended warranty" that would just cover repairs.</p> <p>Q4. Can Options for "future equipment" (months 13-60) be based on GSA pricing? - Can the proposal be submitted without pricing the Options, or some of the options?</p> <p>A4. Quotes can be based on GSA pricing, but can not be tied to GSA schedule. This order will be awarded as open market, not GSA. - Options can be marked "no bid", but the vendor may risk disqualification if other offerors propose Options pricing-</p> <p>Q5. Does TTB want to include optional 1 liter ballast and a 10cc aliquot in the proposal?</p> <p>A5. Yes, we want a 1L ballast and 10cc loop for sensitivity, not the default.
