*Solicitation No. ED-08-R-0074 is Hereby Amended as Follows:*

**1) Delete the contents of Subsection L.12 and replace with the following:**

The offeror shall provide a detailed budget for carrying out the tasks associated with the administration and implementation of this program. This proposed budget is referred to as the "Administrative Costs" budget. **\*\*NOTE\*\*** The delivered services under Subtask 4.c are not to be calculated as part of the Administrative Costs budget. The submitted Administrative Costs budget should account for the costs (direct labor, subcontracting costs, indirect rates and other direct costs) that are associated with each of the identified tasks, less Subtask 4.c. For the base period, offerors should assume that a total of \$307,000.00 is available, of which is to fund the Administrative Costs, the Fixed Fee, and the "Programmatic Costs" that will be rendered under Subtask 4.c. The funds remaining from the Administrative Costs budget and the Fixed Fee amount constitutes the Programmatic Costs that will be available for service delivery to the private schools under Subtask 4.c.

For each of the contract periods, the business proposal shall clearly indicate the Administrative Costs budget, the Fixed Fee amount, and the amount available for the Programmatic Costs.

For the option periods, offerors should assume that a total of \$707,000.00 will be available. Similar to the base period, the submitted business proposal should account for Administrative Costs and Fixed Fee, with the remaining amounts accounting for Programmatic Costs. It should be noted that the stated option period funding amount is being provided for proposal evaluation purposes only, and that interested parties should not interpret or construe this amount as being a firm funding commitment on behalf of the government.

Offers that do not adhere to the assumed \$307,000 base period ceiling and \$707,000.00 option period ceilings may be declared non-responsive and dismissed from further consideration as a result.

Offerors should be further aware that, during school year 2007/2008, approximately 2,222 students in fifteen (15) private schools from seven local education agencies were serviced under the EETT program via the incumbent contract.

As part of the business proposal, an offeror must include a copy of their latest approved indirect rate agreement **issued by a cognizant federal agency**. If the offeror does not possess an indirect rate agreement, the offeror must provide a detailed explanation of the proposed rate, to include the pool and base. Furthermore, the business proposal must elaborate on the offeror's accounting system by describing how the system attributes the costs incurred to each individual contract **and the timeliness of reporting expenditures to the U.S.**

**Department of Education in the monthly reports required under Task 6.a of the Statement of Work (Attachment A).**

The business proposal shall include a subcontracting plan that outlines both the organization's commitment to achieving a 23% small business subcontracting amount for each contract period and a demonstration of the offeror's past compliance with established subcontracting plans via the submission of the associated SF294 form(s).

There is no page limitation on the business proposal, however, it must adhere to the same technical proposal format criteria set forth under Provision No. 311-3, TECHNICAL PROPOSAL INSTRUCTIONS (MARCH 1986).
